NEW COLLECTION RELEASE

Postcards of Nature contains 26 patterns which highlight our long-awaited *post-consumer recycled polyester chenille*. These patterns are inspired by the objects and textures found in nature. In the inspiration photos and patterns you will see motifs of flowers, leaves and trees along with solids and weave textures. The colors were chosen to highlight the breadth of color available in this chenille.

All of these 26 patterns are 100% Post-consumer Recycled Polyester and meet ACT standards.
